Central Coast German Shepherds

Dog Food: We feed LIFE'S ABUNDANCE LARGE BREED PUPPY FOOD. Please DO NOT feed any other brand of dog food until your puppy has been acclimated to his/her new home (for up to 1 month from your puppy's arrival date). To reduce the risk of Hip Dysplasia, other Intestinal and autoimmune disorders, please consider keeping your puppy/dog healthier by remaining on the LIFE'S ABUNDANCE diet. Please use the package instructions as a feeding **guide**. Should you have a need to change their diet, for whatever reason, please consult with Central Coast German Shepherds for alternative options and/or recommendations. 80% of Hip Dysplasia is caused by environmental factors such as early spay and neuter and lack of quality Diet. Only 20% is Genetic and subject to controlled breeding practices. We do our part. PLEASE do yours.

Other:

FLEA MEDICATION: We use **Soresto Collars (can be taken off if reactions where other medications cannot be removed once administered)**. **Bravecto may be an option, discuss with your Vet.** Your puppy has not been started on flea medication.

HEARTWORM MEDICATION: **Heartguard** Your puppy has not been started.

JOINT HEALTH & IMMUNE SUPPORT: NuVet Plus and NuJoint. These supplements help with Immune System Support and Joint Support. Refer to our NUVet page on our website for details. **NUVet 800-474 7044 ORDER CODE: 973808**
